

ALLGIG-AV-HARNESS

SKU# NTV-HAR120

The ALLGIG-AV-HARNESS is a plug-and-play harness used in conjunction with the ALLGIG-XG-HS or ALLGIG-XG-LSFT integration modules to allow front and rear view camera inputs, an Audio and Video input and an AV output from the factory MYGIG DVD player. THIS HARNESS CANNOT BE USED AS A STAND ALONE AND WILL ONLY FUNCTION IN CONJUNCTION WITH NAV-TV'S ALLGIG MODULES. The most common uses for the ALLGIG-AV-HARNESS are to add a rear view camera, front camera, external AV source or to extract the factory DVD video from the MYGIG radio and display it on an aftermarket rear seat entertainment system

ALLGIG-XG-HS

SKU# NTV-KIT260

The ALLGIG-XG-HS is a plug-and-play multi-purpose interface module for select Chrysler, Dodge, Jeep and Volkswagen vehicles with the MYGIG radio. By itself, it allows navigation destination entry without stopping and the MYGIG DVD player to be viewed in any gear and at any speed. Coupled with the ALLGIG-AV-HARNESS it allows the integration of a rear view camera, front view camera, FLIR night vision, an Audio/Video input for external A/V sources and an Audio/Video output that allows the image from the MYGIG factory DVD player to be sent to rear seat monitors.

RGB-VW

SKU# NTV-KIT389

The RGB-VW is a rear view camera integration interface for select VW vehicles with an RNS 310, 315 or 510 Navigation system. It allows a rear view camera image to be displayed on the factory LCD screen automatically whenever the vehicle is placed into reverse.

MUST BE PROGRAMMED WITH A VAG-COM COMPUTER TO ENABLE THE REAR VIEW CAMERA BEFORE INSTALLATION

ONLY COMPATIBLE WITH RNS NAVIGATION HEAD UNITS

REAR VIEW CAMERA NOT INCLUDED

BNT-KIT

SKU# NTV-KIT058

The BNT-KIT is a video interface module for Bentley Continental, Flying Spur and Continental GT vehicles. The unit has two composite video inputs and supports video in motion for the aftermarket video sources. The most common uses of the BNT-KIT are to add a rear view, front view or FLIR night vision camera, a DVD player, video iPod or game station to the vehicle's factory color LCD screen.

Video In Motion For Aftermarket Video Devices Is Supported

2 Composite Video Inputs

Installs Into The Factory Radio

BNT-AUDIO

SKU# NTV-KIT371

The BNT-AUDIO is an audio interface module for Bentley Continental, Flying Spur and Continental GT vehicles that allows audio to be introduced digitally into the factory stereo system. Coupled with the BNT-KIT video interface module, the BNT-AUDIO provides a true A/V input solution.

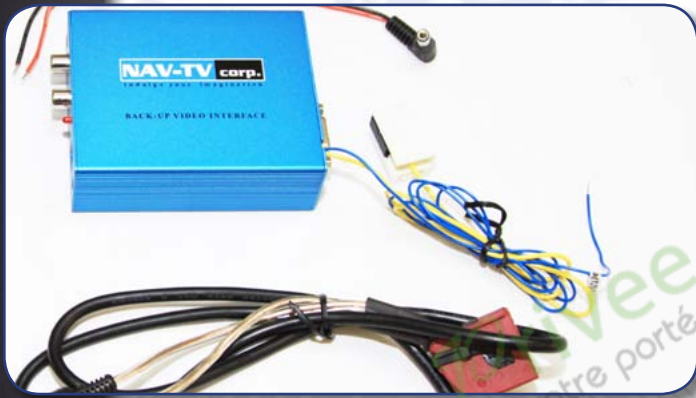

AUDI09 EXTERNAL MMI

SKU# NTV-KIT187

The Audi 09 External MMI is a video interface for select 2009 and up Audi vehicles where the MMI controller is located on the center console. It has a dedicated rear view camera and RGBs input in addition to three Audio and Video inputs and an A/V switcher with an output for external monitors. Audio integration into the factory system requires that the vehicle have factory aux audio input capability. The most common use of the Audi 09 is to add a rear view, front view or FLIR night vision camera, an aftermarket navigation system, DVD player, video iPod or game station to the vehicle's factory color LCD screen. Video in motion for the aftermarket accessories is supported.

TRG-KIT

SKU# NTV-KIT078

The TRG-KIT is an Audio/Video integration device for select VW vehicles. It displays an aftermarket external video device onto the factory LCD radio screen and introduces audio into the sound system. Video in motion of the aftermarket A/V source is supported in motion for passenger entertainment.

Video In Motion For Aftermarket Video Devices Is Supported

Installs behind The Factory Radio
