## W221-CAM

SKU# NTV-KIT111

The W221-CAM is a rear view camera and Audio/Video interface for select Mercedes Benz vehicles. It has a dedicated rear view camera input and an addition Audio/Video input for an external A/V source. The interface includes the required A/V switcher and components necessary for a complete Audio/Video and rear view camera integration solution. The rear view camera image is automatically displayed on the factory LCD screen whenever the vehicle is placed into reverse and the external A/V source is activated by a steering wheel button press. Video in motion for the external A/V source is supported.

**CAMERAS AND EXTERNAL A/V DEVICES NOT INCLUDED**

## W204-XG-VIM

SKU# NTV-KIT279

The W204-XG-VIM is a plug-and-play video in motion interface for select Mercedes Benz vehicles. It allows compatible vehicles that play a DVD movie on the front screen while in park, to view the factory DVD source in any gear and at any speed, for passenger entertainment.

## NTG3-E

SKU# NTV-KIT106

The NTG3-E is a multi-functional integration solution for select Mercedes Benz vehicles. It allows a rear view camera image to be displayed on the factory LCD screen anytime the vehicle is placed into reverse. Additionally, It allows the Audio/Video from the factory DVD player to be extracted and sent to external monitors and allows an Audio/Video input from an external A/V device. Video in motion of the factory DVD player and external A/V device is supported in motion, at any speed and in any gear, for passenger enjoyment.

**DOES NOT INCLUDE A REAR VIEW CAMERA OR EXTERNAL A/V DEVICE**

## NTG3

SKU# NTV-KIT102

The NTG3 is a multi-functional integration solution for select Mercedes Benz vehicles. It allows a rear view camera image to be displayed on the factory LCD screen anytime the vehicle is placed into reverse. Additionally, It allows the Audio/Video from the factory DVD player to be extracted and sent to external monitors and allows an Audio/Video input from an external A/V device. Video in motion of the factory DVD player and external A/V device is supported in motion, at any speed and in any gear, for passenger enjoyment.

**DOES NOT INCLUDE A REAR VIEW CAMERA OR EXTERNAL A/V DEVICE**

## NTG3-SL

SKU# NTV-KIT142

The NTG3-SL is a multi-functional integration solution for select Mercedes Benz vehicles. It allows a rear view camera image to be displayed on the factory LCD screen anytime the vehicle is placed into reverse. Additionally, It allows the Audio/Video from the factory DVD player to be extracted and sent to external monitors and allows an Audio/Video input from an external A/V device. Video in motion of the factory DVD player and external A/V device is supported in motion, at any speed and in any gear, for passenger enjoyment.

**DOES NOT INCLUDE A REAR VIEW CAMERA OR EXTERNAL A/V DEVICE**

## NTG3-SLK

SKU# NTV-KIT189

The NTG3-SLK is a multi-functional integration solution for select Mercedes Benz vehicles. It allows a rear view camera image to be displayed on the factory LCD screen anytime the vehicle is placed into reverse. Additionally, It allows the Audio/Video from the factory DVD player to be extracted and sent to external monitors and allows an Audio/Video input from an external A/V device. Video in motion of the factory DVD player and external A/V device is supported in motion, at any speed and in any gear, for passenger enjoyment.

**DOES NOT INCLUDE A REAR VIEW CAMERA OR EXTERNAL A/V DEVICE**

## X164

SKU# NTV-KIT041

The X164 is a rear view camera and video integration solution for select Mercedes Benz vehicles. It allows a rear view camera image to be displayed on the factory LCD screen anytime the vehicle is placed into reverse. An additional video input can be activated by pressing and holding a steering wheel button combination. Video in motion of the external video device is supported in motion, at any speed and in any gear, for passenger enjoyment. Audio integration requires either the factory aux audio input or an FM modulator.

**DOES NOT INCLUDE A REAR VIEW CAMERA OR EXTERNAL VIDEO DEVICE**

## W221-XG-VIM

SKU# NTV-KIT219

The W221-XG-VIM is a video in motion interface for select Mercedes Benz vehicles. It allows compatible vehicles that play a DVD movie on the front screen while in park, to view the factory DVD source in any gear and at any speed, for passenger entertainment.

## W212-XG-VIM

SKU# NTV-KIT239

The W212-XG-VIM is a video in motion interface for select Mercedes Benz vehicles. It allows compatible vehicles that play a DVD movie on the front screen while in park, to view the factory DVD source in any gear and at any speed, for passenger entertainment.

## MOST HUR MB "OPTI-1"

SKU# NTV-KIT421

The MOST HUR MB "OPTI-1" is a fiber optic radio replacement module for select Mercedes Benz vehicles with a fiber optic amplifier. The OPTI-1 allows an aftermarket radio to be installed into a compatible vehicle while retaining the factory amplifier, speakers and sound quality. The OPTI-1 is the only available Mercedes Benz radio replacement module operating on MOST available globally.

**FADE IS NOT SUPPORTED WITH THE OPTI-1**

**REQUIRES 3RD PARTY STEERING WHEEL CONTROL ADAPTER, ANTENNA ADAPTER AND EXTENSION HARNESS THAT ARE NOT INCLUDED**

**DASH KITS ARE AVAILABLE FOR SOME MODELS**

## 204/212 CAMERA

SKU# NTV-KIT226

Factory-fit rear view camera for select Mercedes Benz vehicles. Replaces one of the license plate illumination lights and includes a high-quality Sony CCD camera with .1 lux and 170 degree field of view. Requires no modification to the vehicle.

## 221 CAMERA

SKU# NTV-KIT209

Factory-fit rear view camera for select Mercedes Benz vehicles. Replaces one of the license plate illumination lights and includes a high-quality Sony CCD camera with .1 lux and 170 degree field of view. Requires no modification to the vehicle.

## GLK CAM 2010

SKU# NTV-KIT353

Factory-fit rear view camera for 2010 Mercedes Benz GLK vehicles. Replaces one of the license plate illumination lights and includes a high-quality Sony CCD camera with .1 lux and 170 degree field of view. Requires no modification to the vehicle.

## GLK CAM 2011 & UP

SKU# NTV-KIT354

Factory-fit rear view camera for 2011 & up Mercedes Benz GLK vehicles. Replaces one of the license plate illumination lights and includes a high-quality Sony CCD camera with .1 lux and 170 degree field of view. Requires no modification to the vehicle.

## CAM 6

SKU# NTV-KIT299

The CAM 6 is a universal high-quality rear view camera utilizing a Sony HADII camera with .01 lux for low light conditions and a 170 degree field of view. Coupled with the appropriate NAV-TV rear view camera interface, the CAM 6 provides a complete rear view camera safety solution. For discerning customers that demand the highest quality, the CAM 6 is our "go-to" solution every time.

## OPTI-1 DASH KIT E

SKU# NTV-KIT428

The OPTI-1 DASH KIT E is a factory-fit head unit replacement dash kit for select Mercedes Benz E Class vehicles. The kit enables the installation of a double-din aftermarket radio into the vehicle by utilizing the factory radio location opening and mounting. The fit-and-finish of the kit will satisfy evening the most demanding customers. This is a perfect compliment to the OPTI-1 head unit replacement module or for any application where a radio replacement is desired in a compatible Mercedes Benz vehicle.

## OPTI-1 DASH KIT SL

SKU# NTV-KIT429

The OPTI-1 DASH KIT SL is a factory-fit head unit replacement dash kit for select Mercedes Benz SL Class vehicles. The kit enables the installation of a double-din aftermarket radio into the vehicle by utilizing the factory radio location opening and mounting. The fit-and-finish of the kit will satisfy even the most demanding customers. This is a perfect compliment to the OPTI-1 head unit replacement module or for any application where a radio replacement is desired in a compatible Mercedes Benz vehicle.

## OPTI-1 DASH KIT SLK

SKU# NTV-KIT430

The OPTI-1 DASH KIT SLK is a factory-fit head unit replacement dash kit for select Mercedes Benz SLK Class vehicles. The kit enables the installation of a double-din aftermarket radio into the vehicle by utilizing the factory radio location opening and mounting. The fit-and-finish of the kit will satisfy even the most demanding customers. This is a perfect compliment to the OPTI-1 head unit replacement module or for any application where a radio replacement is desired in a compatible Mercedes Benz vehicle.

## W204-12

SKU# NTV-KIT311

The W204-12 is a video interface for select Mercedes Benz vehicles. It has a dedicated rear view camera and RGBs input in addition to three Audio and Video inputs and an A/V switcher with an output for external monitors. The rear view camera image is automatically displayed on the factory LCD screen whenever the vehicle is placed into reverse. Audio integration into the factory system requires that the vehicle have factory aux audio input capability. The most common use of the W204-12 is to add a rear view, front view or FLIR night vision camera, an aftermarket navigation system, DVD player, video iPod or game station to the vehicle's factory color LCD screen. Video in motion for the aftermarket accessories is supported.

CAMERAS AND EXTERNAL A/V DEVICES NOT INCLUDED

## CAM 6

SKU# NTV-KIT299

The CAM 6 is a universal high-quality rear view camera utilizing a Sony HADII camera with .01 lux for low light conditions and a 170 degree field of view. Coupled with the appropriate NAV-TV rear view camera interface, the CAM 6 provides a complete rear view camera safety solution. For discerning customers that demand the highest quality, the CAM 6 is our "go-to" solution every time.

## 2012-2013 MERCEDES BENZ C CLASS

## Compatible Radio or LCD Screen

Small color LCD screen. Does not play a DVD movie in park

## Compatible Radio or LCD Screen

### W204-XG-VIM

SKU# NTV-KIT279

The W204-XG-VIM is a plug-and-play video in motion interface for select Mercedes Benz vehicles. It allows compatible vehicles that play a DVD movie on the front screen while in park, to view the factory DVD source in any gear and at any speed, for passenger entertainment.

### W204-5

SKU# NTV-KIT198

The W204-5 is a video interface for select Mercedes Benz vehicles. It has a dedicated rear view camera and RGBs input in addition to three Audio and Video inputs and an A/V switcher with an output for external monitors. The rear view camera image is automatically displayed on the factory LCD screen whenever the vehicle is placed into reverse. Audio integration into the factory system requires that the vehicle have factory aux audio input capability. The most common use of the W204-5 is to add a rear view, front view or FLIR night vision camera, an aftermarket navigation system, DVD player, video iPod or game station to the vehicle's factory color LCD screen. Video in motion for the aftermarket accessories is supported.

**CAMERAS AND EXTERNAL A/V DEVICES NOT INCLUDED**
